Content

Best Practice -I

1. **Title: Transparency in Evaluation system.**

2. **Objectives of the Practice**
   - To create more conscious evaluation system.
   - To develop academic transparency between students and teachers.
   - To minimize examination related grievances.
   - To resolve exam related grievances at college level rather going through university redressal.

3. **The Context** :

When students getting to see their papers, one can ensure the accountability of the teacher assessing the paper and determine where the mistake occurred. By taking this vision our institution introduced re-evaluation process to impart transparency in evaluation system. Consecutively for last three years the college is running this practice. for students' satisfaction. The re-evaluation of internal examination answer sheets is done by our students after assessment of answer sheet by the subject teachers at the end of the semester. The Examination control department scheduled the re-evaluation day and displayed the said notice on notice board, under the observation of subject teacher and exam controller the students clear their doubts about assessment process of their attempted papers.

4. **The Practice**:

During the year 2021-22, after ending of both semesters, Due to Covid-19 pandemic lockdown both semester internal exams were held in online mode. So therefore, we offered students to observe their online internal examination marks on google meet and clarifies the doubts and confusion about the assessment of the online exams with the subject teacher, correction in the marks if any is recorded systematically by the examination control department. If there is any mistake is occurred in online evaluation system, it is taken into consideration as earliest in re-evaluation process and resolves it before feeding of marks at university login.

This practice of re-evaluation by the students shall also serve as a way to self-assess them. When they are able to clearly understand where they have gone wrong, students will be able to see Do's and don't's in more rational light. We for one believe that if we switch to complete clarity in evaluation, it can clear all the differences in creating a more conscious evaluation system for the future generation.

5. Evidence of Success:

1. No Grievances is reported during the year about assessment process.

2. Appreciation of the practice by students and other stakeholders.

3. Students attend the process enthusiastically and get satisfied.

6. Problems Encountered and Resources Required:

No problem is encountered to follow such practice as it is one of the healthy practices for teacher and students. Some conflicts arise due to wrong assessment by any examiner, which was resolved by making corrections in the marks break-up and making student satisfied with good clarification.

Screenshots of online Re-evaluation process by students.

Best Practice -II

1. **Title: Social awareness campaign among students**
2. **Objectives of the Practice**
   a. To support Swachh Bharat Abhiyan of Central Government of India
   b. To develop sense of responsibility among students towards clean and green environment.
   c. To create awareness among students and staff peoples to follow proper waste management system.
   d. To make behavioural change in people regarding healthy sanitation practices.

3. **The Context:**

As our college is located in the rural and draught area, we believe, it is important for us to be involved in the issues of environmental protection. Therefore, we engage and take care of the environment and its resources. Our ambition is to increase the knowledge of each student, staff and peoples about clean and green environment and stimulate them to protect it by following proper waste management ethics. In order to spread knowledge about maintaining clean and green surrounding we continuously inculcate this responsibility among students through awareness programs, slogan and banner display.

4. **The Practice:**

The institute focuses on the Promotion of practices that are essential for sustainable environmental and social management. We encourage our students and staff to do the same and contribute to a green future. Along with this institute run the campaign for environment protection, like Jalshakti Abhiyan, Go-Green club and also through programs under National Service Scheme etc. This year our institute taken initiatives for environmental wellbeing such as, water conservation program under Jalshakti Abhiyan, Natural products Exhibition program under GO-Green club and many of the cleanliness awareness activities by NSS volunteers. To continuous obey of maintaining clean and green campus of college we displayed many slogans and banners under the social awareness campaign.

Some snapshots are given for representing our social awareness campaign....
