Out Aim to Introduce

Digital Support Scheme

Introduction:

In the contemporary educational landscape, digital transformation has emerged as a fundamental driver of academic success and institutional efficiency. The Arts, Commerce and Science College, Bodwad has embraced this transformation through its Digital Support Scheme, which aims to enhance the quality of education and accessibility of resources for its students. This initiative is a testament to the college's commitment to leveraging technology in fostering an enriching learning environment.

Go Online.....

Best Practice -2

Digital support scheme

Objectives of the Practice

The Digital Support Scheme is designed with several key objectives in mind:

1. **Enhancing Learning Opportunities:** To guide students with access to digital resources, including online lectures, e-books, and educational platforms, thereby enriching their learning experience.
2. **Promoting Digital Literacy:** To equip students with essential digital skills that are vital in today's job market, ensuring they are prepared for future challenges.
3. **Facilitating Effective Communication:** To enhance communication between students and faculty, allowing for better academic support and collaboration.
4. **Supporting government schemes introduced for Remote area:** To encourage students from remote area to take up benefits of various governmental schemes.
5. **Enhancing student's placements:** To provide digital supports in registrations for various government schemes.

The Context

Situated in a rural area, the Arts, Commerce and Science College Bodwad serves a diverse student population, many of whom come from economically disadvantaged backgrounds. Traditional learning methods often limited students' exposure to contemporary educational resources. Recognizing this gap, the college initiated the Digital Support Scheme to bridge the divide and offer equitable access to quality education.

The initiative aligns with broader educational policies promoting digital literacy and access to information, as well as the increasing integration of technology in higher education. It also responds to the challenges posed by the COVID-19 pandemic, which necessitated a shift towards remote and blended learning environments.

The Implementation

The Practice

The implementation of the Digital Support Scheme involved several key components:

1. **Infrastructure Development:** The college invested in necessary technological infrastructure, including high-speed internet connectivity, computer labs, and digital classrooms equipped with projectors and interactive boards.
2. **Support Services:** A digital support committee was established to provide technical support for students. This team assists with troubleshooting technical issues and guides users in accessing digital resources.

For example: The institute prioritizes the promotion of practices that enhance awareness of various digital services available through our digital support schemes. These services include online admission, online exam forms, online scholarship applications, 24/7 online account security assistance, employment exchange registration, and online Aadhaar linking and corrections.

In the past two years (2022-23 and 2023-24), the institution organized a week-long employment exchange registration camp for final-year bachelor's and master's degree students. This initiative facilitates online registration at <https://rojgar.mahaswamyam.gov.in> allowing students to enroll on the government website and receive digital notifications about new job opportunities.

Additionally, the institution executed an informative program on the online admission process, which included displaying the procedure on notice boards and providing guidance during the application process. In the 2023-24 academic year, the institution implemented both the employment exchange registration camp and the Ayushman Bharat healthcare generation camp. Throughout the year, we continued to offer digital support for various registration processes. Moreover, the institution provided assistance to female students in registering for the Mukhyamantri Mazhi Ladki Bahin Yojana, which grants financial support of ₹1,500 from the Chief Minister's fund.

Evidence of Success

The success of the Digital Support Scheme can be evidenced through various metrics:

1. **Increased Student Engagement:** Surveys indicated a significant increase in student engagement and satisfaction levels, with many students reporting enhanced learning

experiences and greater access to regarding their placements. Students receiving job opportunities notifications through e-mail or SMS through employment exchange.

2. **Increase Enrolments for various government scheme:** There has been a noticeable improvement in academic performance among students participating in the scheme. Online applications or registrations is done successfully for many schemes and job opportunities.
3. **Wider Resource Utilization:** Usage statistics showed a marked increase in the utilization of digital resources for Jobs opportunities. Many students have registered for employment exchange on Maharashtra Government website. Also, ABHA health card has been generated for the students.
4. **Enhanced Faculty Collaboration:** Faculty members reported improved collaboration and communication through digital platforms, leading to provide more academic support for students.

Problems Encountered

Despite its successes, the Digital Support Scheme faced several challenges:

1. **Technological Barriers:** Some students struggled with accessing digital resources due to inadequate personal devices or unstable internet connectivity, particularly those from economically disadvantaged backgrounds.
2. **Maintenance and Upgrades:** The rapid pace of technological advancements necessitated ongoing investments in infrastructure and resources to keep the digital support system relevant and effective.
3. **Training Needs:** Continuous training was essential, but scheduling conflicts often made it challenging to ensure all students and faculty received adequate training on new tools and platforms.

Resources Required

The successful implementation of the Digital Support Scheme relied on various resources:

1. **Financial Investment:** The college allocated funds for upgrading technological infrastructure, purchasing licenses for digital resources, and investing in training programs.
2. **Technical Expertise:** Hiring or training staff with expertise in educational technology was *crucial for providing effective* support and training to both students and faculty.
3. **Partnerships:** Collaborations with technology providers and educational institutions enhanced the range of resources available to students, allowing for a broader selection of digital learning materials.

Conclusion

The Digital Support Scheme at Arts, Commerce and Science College, Bodwad represents a proactive approach to addressing the educational challenges faced by students in a rural context. By focusing on enhancing digital literacy and providing equitable access to resources, the college has not only improved academic outcomes but also prepared its students for the demands of a rapidly changing world. Through continuous improvement, collaboration, and a commitment to embracing technology, the college is well-positioned to sustain the success of the Digital Support Scheme as a best practice in higher education.

Digital Support Scheme

Introduction:
Arts, Commerce and Science College are established in 1986. It is the premier and multi faculty educational centre affiliated to Kavyatri Bahinabai Chaudhari North Maharashtra University, Jalgaon. The college has been re-accredited by the NAAC with 'B' Grade. Our institutional mission is "Commitment to generate excellence through quality education for all round development of the learners". Best practice: entitled as "Digital support scheme" which upgrades students and faculty through providing knowledge about digitalization. This practice supports digital India campaign implemented by central government of India.

Aims

- To support Digital India scheme of central government
- To encourage students for using online services
- Involvement of students in spreading digital awareness in local society

Objectives:

- To literate students about online security and privacy terms.
- To spread awareness about various available online facilities
- To solve any digital problems.
- To motivate students for spreading digital awareness about online service informations in society.

Commitments:
We committed to help students for

- Online admission
- Online exam form.
- Online scholarship form.
- Security help.
- Creation of driving license.
- Registration of employment exchange.
